DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claim 5, line 18 – delete the word “after”

Examiner notes that the word “after” appears to have been added to claim 5 inadvertently. First, original claim 5 did not contain the word “after.” Original claim 5 had, and still does have, the term “during.” Secondly, in the amended claim 5, the word “after” is not underlined which it would have had to have been in order to be considered a valid amendment as required by US Patent Office guidelines regarding addition of claim language by amendment. Finally, the claim language, as amended, does not make grammatical sense. In other words, the claim language, “wherein the error angle of skew is stored *after during* said first pass and is then retrieved during said second pass (emphasis added)” does not make sense as written. Therefore, in light of the above-cited reasons, claim 5 is amended to delete the word “after” from the claim.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has amended claim 5 so as to put claim 5 in independent form including all of the limitations of the base claim and the intervening claims. Claims 6-9 were allowed in the previous office actions for the reasons given in that office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
